Research & Development

Our R&D Department takes care of every part of your bulk.

We observe the newest trends, test new kind of raw materials and search for some new and unique formulation. We also create colors especially for your needs.

In our lab we are testing cosmetics with microbiology and dermatology. We cooperate with a few laboratories around the Europe as well. We can check for example, if your product is antibacterial.

We exchange your ideas into your products.

Quality Control

Our Quality Control Department takes care of your product even before we start the production process.

Phase 1 – all of the used materials for package, raw materials for bulk are being checked, before we start production

Phase 2 – your product is checked and controlled on each production step. We check bulk, printing, box and much more.

Phase 3 – final checking before packing and leaving our factory

Create your product in 6 simple steps

Define your
needs

1

Choose package

One of the most important think about cosmetic is the way you present it.

Let us know, what is your vision, give us some inspiration and we will surely find something interesting for you. You can choose from wide variety of packages produce by ourself or we can find for you something what meets your expectation. We cooperate with producers from around the world – from Asia, Europe and USA.

2

Imagine finish and design

You have ideal package for your product, you need to think about the design.

We offer you all of the decoration techniques, which can underline your logo, or just stand our from other cosmetic manufacturer. HS and silkscreen print, any kind of metallisation, labels, are created according the market trends and your requirements.

3

Decide what kind of bulk you want

Think what would you like to offer to your customer.

Think about the special requirements of the bulk. We have a wide range of ready bulks, from which you can easily find something interesting for you. Whenever you need it to be Oko-conform, some ecological certification or you just need good quality product – we are open to create something you want.

4

Think about your colours range

Even the best bulk will be nothing without the proper colors.

Whatever part of the world you come from, you can easily find any shade from our wide range of colours. We have over 300 Nail Polish colours, over 200 lipstick colours and even more eyeshadows. If you need special colour – we will create it for you.

5

Find the best way to pack it

After having ready product, it needs to have a proper look on the shop shelf.

We offer you many options of the packages. We can prepare made to measure carton box, some occasional packages, leaflet with description, some sets, especially made trays, or just single product itself. Trendy ecological packagings are also our strengths.

6

Fulfill the logistic requirements

When you product is ready, you need to meet special logistic criteria.

Whatever is require by you - 3-pack, 5-pack or 50 units per small box, just let us know about, we take care of it. We can pack you product within polybag, protective sleeve, small cartons or just single box. We will meet all the standards you wish.

We quarantee the result

Your complete
cosmetic is ready!
